More Info

We are excited to be offering this Emotionally Focused Therapy (EFT) Externship, endorsed by ICEEFT, focused on same gender relationships. In this training, we will be discussing, showing, demonstrating, and generally exploring EFT with a focus on lesbian, gay, and bisexual clients who are in same gender relationships. We know that people in same gender relationships can also be trans, two-spirited, queer, questioning, intersex, asexual, demisexual, aromantic, pansexual, omnisexual, and more!

Our training will integrate:

- our own lived experiences as lesbian and gay trainers,
- how to conceptualise and work with the impact of minority stress,
- further considerations and elaborations for working in an attachment framework with your lesbian, gay and bisexual clients in same gender relationships.

Participants

You are eligible to apply if:

- You are a member of a recognised professional mental health organisation or a student in a mental health program
- You are affirmative of people who are LGBTTTQQIAP+
- You want to develop your understanding of Emotionally Focused Therapy, particularly in relation to working with couples.
